I join with the American Association of University Women (AAUW) in asking you to accept the recommendations of the Institute of Medicine as pertains to coverage of preventive care under the new health care law.

Please to reject any exemptions for “religious employers.” This would allow all employers to discriminate against their women employees just by saying they reject it based on religion. What religion? Please do not let the Radical Right run the Republican party. They are dangerous to all parts of women’s lives.

The Radical Right doesn’t ask how can they help the children already available for adoption, they just want to require more women to be pregnant without resources. This sounds very much like slavery.
